**Svart version**

**Farge version**

For denne logoen jeg fikk inspiration av Nike og «M» står for Manej, som er etter navnet mitt. Som du kan se logoen ser ut som den smiler, jeg gjorde den på denne moten fordi folk trenger litt positivitet i livet sitt. Jeg valgt å lagge to versjoner av logoen, fordi jeg kan bruke den for forskjellige bakgrunder.

About Me

My name is Regels, I am a 17-year-old boy from Albania. I have two little siblings one of them is 14 and the other one is 10. I lived in Albania most of my life but then I moved to Norway 3 years ago. Since I moved to Norway I have been to four different schools, and I have learned different things from each of them. I can speak three different languages, Albanian, English and Norwegian. The hardest language that I had to learn was Norwegian, but I still learned it because I never give up on something. When I am interested or curios about something, I always want to get to know more about it. That is one of the main reasons on why I joined IM. I knew what computers and internet were, because I grew up playing videogames, but I wanted to get deeper and get to know how to make a game or a website myself.

Arial, Helvetica, sans-serif;

Jeg valgt å bruke samme font i alle tekste fordi, jeg ville at den ser likt ut, og den var lett å lese.
